MY EXPERIENCE ON NCC

I am cadet Tanuja Tomta from 24 UK GIRL'S BN. MBGRI COLLEGE, HALDWANI. My personal motivation to join the NCC was the awesome sight of the many Republic Day Parades, Independence day Parades and the inspiring uniformed NCC cadets. I witnessed during my childhood. I enquired about the roles played by a NCC cadet in the society.

I got motivated by what I learnt and decided to join the NCC to dedicate my contribution to my country. NCC was the turning point in my life. It changed me from a common person to a special person. It taught me leadership, time management, stress management team work which my self unique. This is my story of my unforgettable NCC life.

Selection Process -> There were more than hundred something participants in the selection round, I thought it would be a very tough competition and was really scared. But I gathered a lot of motivation and courage to compete in the selection process. we are divided into teams of something seven or eight and the following were the rounds for the selection.

DATED _____

I was the second candidate to complete all the rounds in my team, and my seniors said all the volunteers are members of NCC. Nobody is getting rejected in this selection process. This competition and selection round was held only for showing your physical fitness and stamina after listening to those complimenting words. I felt relaxed and happy.

The life as a cadet is one of the best experiences in NCC.
