Regimental no. : UK/19/SD/A101382

University : Graphic Era University

Unit : 29 UK BN NCC

Group : Dehradun

Directorate : Uttarakhand

My NCC Experience

My NCC journey started since the day I got enrolled by the process. It was a great opportunity for me to join NCC. I have always been participating in extra circular activities and sports events in my school days and NCC has provided me a great opportunity to participate and take initiatives for myself.

NCC has build me up into a disciplined cadet and has taught me unity and stability. NCC has provided me different platforms and participating in various activities such as camps, dance and singing gave huge opportunity to develop my skill set and has given me beautiful exposures.

My first activity of this beautiful journey started with **Swachh Bharat Abhiyan**, in which we cleaned various places and won the best institute award.

The next opportunity for me was when we were taken to **Jaspal Rana Range** and I had great firing experience. The day taught me many things and it was my first shooting experience.

After my 1st year when I was promoted to 2nd year, the pandemic hit and everything was locked but life has to go on and being an NCC cadet I have to give my yogdan by making people aware as the campaigns were made by our government and making people aware to follow the rules of the lockdown and aware them about **Aatma Nirbhar Bharat**.

Later, camps like CATC, RDC selection camp and online webinars on Air Force and Kargil Vijay Diwas and many more inspirational webinars make my decision to give my services to my country more strong. After getting eliminated in the final round of RDC I got the opportunity to show case my talent in CATC camp.

In this journey I made many friends and NCC has always been supportive has given me beautiful memories and has always felt like a family to me. My NCC journey is going beautiful till now, there are more to explore and still counting.

JAI HIND
