Why I joined NCC?

I have seen and always Respected Uniform Jobs And activities and Was able to join to NCC at the beginning of its arrival in the college, I was somewhat of a sportsperson and maintains a well body too, I have always known that NCC Molds a person so that they become Highly skilled in Communication, Comradeship, Leadership, Ability to maintain Character at High Pressure, These are the Things I too wish as all cadets to achieve as it will put me in the right path of my career.

Doing Social Activities Does Gives me proud that we are serving our nation, I am also happy that we have received a great and Energetic ANO, to guide and help us through the journey, Getting to know Their Achievements and experience are a true motivator for a cadet, Joining the NCC has also provided many opportunities in the college, Creating Friends, Building Connection Outside the College etc., By these words I conclude My Article

Thank you
