

# **ANNUAL TRAINING CAMP**

Annual training camp is organised every year in the NCC unit, all around the country. In this camp cadets are given knowledge and training about their respective subjects. Army wing focuses on subjects like Map reading, Drill, weapons training, etc. naval wing focuses on subjects like Naval orientation, drill, ship modelling, etc. air wing focuses on subjects like aircraft modelling, drill, etc. There are some common subjects and some specialised subjects among the three wings- ARMY, NAVY & AIR.

Today I cadet Rishav Roy is going to share some of our ATC training of our 3 MP NAVAL WING, GWALIOR unit between 8<sup>th</sup> of feb-12<sup>th</sup> of feb,2021. A cadet only becomes perfect if he/she is expert in his subjects and has good command in them. So our PI staffs care a lot and take necessary steps to achieve that. In our naval unit various classes were conducted based on our subjects:

1. SHIP MODELLING CLASS
2. WEAPONS TRAINING- about .22 rifle
3. NAVIGATION
4. 4. NAVAL ORIENTATION
5. DRILL

All these classes were conducted very nicely and our PI staffs explained each and every thing very properly. They repeated many times if any topic was not understood. The camp was organised in a very proper manner. Every small thing was taken care of like the refreshments of the cadets, etc. the refreshments was given time to time. The Covid 19 protocol was followed very strictly. Punishment "RADGA" was also given to maintain discipline and hold command in our tasks as it is a part of training. At the end everything was conducted in a nice manner and feedback from each cadet was taken at last to rectify if any required.

CDT. RISHAV ROY
