

# NCC AS A WAY OF LIFE

I believe that NCC is the one and only organisation that helps me to avoid the stage fear in me and develop much confidence in my life. During childhood I have stage fear, after joining NCC in eighth standard I got more opportunities to travel and interact with a lot of my cadet friends in NCC. I was a part of 7(K) Navel Unit NCC during my junior division and I attended one annual training camp and one All India trekking expedition. My ambition is to join in defence forces. Now I am a Senior division NCC cadet. I joined Army NCC in my college and there in the college I learn more about NCC that I didn't get during my JD time. I think if every student is made to opt NCC at least for two years so that he develops qualities of a perfect Gentleman and there won't be any mob lynching, Trolling, Rioting. NCC has got the power to mould a student into a Responsible Citizen.
