

When i was studying in 8th standard,I joined in NCC. Mr. Paul Justin. T sir was the ANO of our school. At first,i was little worried. But later,i enjoyed a lot. It was an amazing experience for me. I learned many things and get smarter. NCC training and programmes had teach me the value of life.

Other than just military training we also got opportunity to learn discipline and gain leadership. NCC provide us a platform to shape our future path. NCC provide at most detection as an individual and sense of responsibility towards our great nation. It will tell how to be with other peoples and kind nature and pathrolic towards nation. NCC cadets learn to take pride in them and the training also strengthens the spirit of being an indian. This help them great towards joining the forces and providing their 100% when the country is in need of them.

Different army officers took classes for us. They teach us valuable lessons of life and the class was very motivating. Outdoor drills was also very interesting

We also take part in social service activities. We clean our surroundings and plant trees. We made awareness about tobacco consumption. We made posters to promote blood donation.

NCC help me to show my love and respect towards my nation. I am very proud to be a part of NCC....

Thank you.

Jai hind.
