

## **MY FIRING CAMP EXPERIENCE**

We reported at Panamanna ground at 8 o'clock sharp for first level TSC selection. There were many experienced cadets. One of the PI staff led us to trials of firing for freshers like me. When I held the gun, I felt really proud and excited. After that we went one by one towards the main firing section. 5 cadets had to fire together and there was an official behind each of the cadets for providing information . All cadets were given rifles with 5 rounds each. We had to wear a helmet while firing . At that time, I really felt like a real soldier who fights for our country. I fired bullets towards the target upon command. Sab measured the grouping distance of each cadet. If it is within 5cm we will get one more chance. Otherwise we will be out of the selection. Unfortunately my firing distance wasn't satisfying. So I didn't get the selection and returned home.

It was my first firing experience and I felt so glad to participate. It gave me confidence to participate in much more camps.
