My personal experience in NCC

Being an NCC cadet is like being unique, disciplined , hardworking ,punctual. It has totally transformed my personality earlier I was very shy girl but now I feel more confident and also have a different aspect to overcome my problems.

The physical strength is the main element of NCC. Everyday we learn something new having 'ragda' together was the best part which also give us the sense of unity. Competition held by our seniors for us give us the leadership quality and also improve our skills. NCC includes drill,guard,cultural activities, nukad natak, sports etc. After joining NCC I got to know about the camps such as RDC, CM rally,PM rally, YEP and many more.

The care taken by our seniors and the love and respect received from the juniors is unmatched they always think for our betterment.

Being an NCC cadet is that feeling of pride and responsibility which no one really gives you but it comes from inside which give it a mire divine form.

Thank you!
