

Experience of Annual Training Camp

Cadet Komal Ninama

1mp girl's battalion Indore

Jai Hind to all of u I am glad to share my experience of my first ATC which is Annual Training Camp which took place at Chota Betma at Indore district. Currently I am in second year of B certificate of NCC. The time period of camp was from 6 Dec 2022-13 Dec 2022. the was a wonderful time over there we have a strict time table and all the cadets have to follow. and the second think we understand our weakness, strength, physical, communicate with other peoples, taking initiative in camp for example giving answer and asking your doubt, come out from our fear. As being the the most important think which leaned that motto of NCC "Unity and Discipline" we have to work in a team and maintain the discipline of the camp and it's about the camp only where we are in civil also what we teach by our pi staff, ANO and seniors. We have to apply in our daily life also. Moral values respecting junior senior helping them all things I learn from the camp. over there we interact different people from different locality we make friends share our knowledge the cadets learn subject like how to fire from back sight u to fore sight tip to the target and field craft battle craft, map reading, how make tent, drill, how to give command, weapon training brief introduction of army there rank and badges, commands of Indian army etc. . Know I will tell u about the schedule of ATC camp

| | |

| Lunch | 1:30 |
| game | 3:30 |
| roll call | 5:15-6:00 |
| dinner | 8:00 |

WE all are busy in day don't have a time to use our phone also. We enjoyed a lot and learn from our mistake there are many competitions are there like Marathon, Volley ball match, briefing of map reading. from this thinks we enjoyed and learn also like we are from blp college and took part in volley ball and some also don't know the rules of volley ball but still we have gave our best and won one match and lost one also from which we learn where we make the mistake. That day was memorable for me my briefing was there at the same time match was there I am bit of nervous what to choose. when I was sitting for M.R reading CATC camp camp commandant col Samir choudhary who will give the first Briefing I was nervous then thought I should because once I finished this I can go to my team and help them because my service was good in my team. so I take initiative and given the briefing and he asked me some question and asked the permission for the match . But we lost the match have a bit of regret but enjoyed. We also watched the sorts video of Indian army. Kargil the war which took place in 1962 indo-china and indo Pakistan in 1965 our brave solders were martyred during war and also we watched traffic rules one should know and follow them.

on the last day we have short program on dance ,music ,camp fire, prize distribution also the memories of ATC will always in my heart . I am proud to being as cadet and part of ncc which help me to build my future
