

INTERNATIONAL WOMEN'S DAY

At a time of intense agitation and discussions among women about oppression and inequality in the early 1900s, the idea of International Women's Day first came to be. We often come across the notion of celebrating International Women's Day (IWD) on March 8 every year across the globe. The day also honours the inspirational work done by women throughout the world to protect women's rights and create a more just society.

Every year, International Women's Day is celebrated on March 8 across the world. It's a day when everyone shows appreciation, love, and respect toward women. A woman is said to be a beautiful creation of God! It is a fact that all great personalities are born from the woman's womb and have taken their initial teachings from a woman. And that is why people give due respect to women in their lives.

It's a day when women are recognized and celebrated for playing various roles in different spheres of life. Women have a robust spirit which makes them excel in their fields. They contribute massively to the lives of their family members and the country.

For many people, the role of women is limited to household chores only. However, this needs to change as women deserve equal freedom and opportunities in everything like men.

The world is moving towards gender equality. It is moving towards a balance between both men and women. A change is required and is also essential. It is observed that men have had more advantages in every sphere of life in comparison to women for ages. However, this needs a change as we all are humans and should be treated equally with equal rights and opportunities.

On International Women's Day, everyone appreciates the women in their lives. Everyone acknowledges the worth and significance of women in their lives, and their tremendous contribution to society as well.
