College :- Com. BHS Arts. TQP. Science college Jawahar.

Battalion Name :- 36 Kar. Bn NCC, Vijayapura

## ROLE OF CADET IN NCC

National cadet corps (NCC) is a youth organisation in India that aims to develop qualities of leadership, discipline, and patriotism among the youth. Cadets in the NCC have a crucial role to play in the organisation like training, leadership, discipline, social service, national integration. The NCC aims to develop leadership qualities among its cadets. Cadets are given opportunities to lead their peers during training exercises, camps, and social service activities. Through these experiences, they learn to lead by example, inspire and motivate their peers and make decisions under pressure. Discipline is a crucial aspect of NCC training, and cadets are expected to adhere to strict rules and regulations. This discipline helps them to develop responsibility, punctuality and respect for authority. The NCC aims to promote national integration among its cadets and from different regions, religions, and backgrounds are encouraged to work together towards common goals. This helps us to develop a sense of national pride, unity, and respect for diversity. In summary, the role of cadets in the NCC is to actively participate in training activities, develop leadership qualities, adhere to discipline, participate in social service activities and promote national integration.
