International women's day (IWD) is a global holiday celebrated annually on 'march 8' as a focal point in the women's rights movement, bringing attention to issues such as gender equality, reproductive rights, & violence & abuse against women. Spurred on by the universal female suffrage movement, IWD originated from labor movements in north america & europe during the early 20th century.

The earliest version was purportedly a "women's day" organised by the socialist party of america in new york city on february 28, 1909.

International women's day is commemorated in variety of ways worldwide; it is a public holiday in several countries, & observed socially or locally in others to celebrate and promote the achievements of women.

Now, women are given equal opportunity at work and are allowed to stand among & at times ahead of men in many fields.
