

27-08-2021

Respected PM Sir,

Recently all-parties political leaders of Behar met with you for Cast wise Census. But question is, is it really meet the basic requirement of a development of society and thereafter the development of our country? Or it is a made easy for the political parties for collection of Votes.

2. Today it is very clear, cast wise un-equal development will not become an equal development of society. You have noticed this more before and makes it "Saab ka Saath Saab Ka Vikash"

3. In this case my opinion –

A. If Ruling & Opposition parties of a state needs to conduct Cast wise census may be allowed. Rule of Central Gov. - Preparation of a SOP & Supervision to avoid imperfect / bias census.

B. In the same time Central Gov. should conduct the Economic Census for the people of all casts & religions in all States to find out their status of Socio Economic background and classify them as per socio-economy standards (Tax slab may be taken as criteria). After conducting the survey a budget may be allocate for the basic needs like House, Water, Electric, Education, Treatment & Works opportunity of such people of all casts and religions. As such "Saab ka Saath Saab Ka Vikash" will be more effective.

"Give and Take Policy" is not a healthy way of a Nation and its future Generations.

Further this will make the present Gov. More faithful to the Peoples of India & Abroad.

Submitted for your perusal.

Thanks & Regards

Namaskar
