

Postage Stamps are the paper ambassadors for every country. They feature images and present the culture, the history, the monuments, flora and fauna and events of a country. The Azadi Ka Amrit Mahotsav will be a once in a lifetime event that celebrates the 75 years of India's independence.

India through its personalities, its monuments, its history, its language, its festivals, its participation in international platforms and its many other facets has featured on postage stamps of myriads of countries across the globe.

Stamps of India would like to propose a travelling philatelic exhibition that can be taken to many different parts of the country to showcase India's achievements and how the world sees us.

A few visual examples are shared below, we would be happy to make a detailed presentation.

Relations

The Exhibit will have the actual stamps, first day and special covers as well as other interesting philatelic items.

It will be written up with all the details about the stamp and the occasion.

We look forward to an early and positive response.
